Today's petitions - two condos in one file

- One is Lanny Rudner, previously incomplete/provisional - now complete
- The other is Amy Ward - she submitted an incomplete petition (I never sent it to you; I just kicked it back) - FYI, that is the reason for the (somewhat unusual) two different dates on her petition (she didn't complete all of the bottom box on the first submission - I mailed it back to her about 10 days ago and she just returned it.)

P.S. FYI - I started working from your tally sheet (so we wouldn't have the rounding difference) and unless I somehow edited it, I think your City total is off. On my copy it was not adding the correct parcels. It showed as **=SUM(BJ192:BJ214)** but I believe it should be **=SUM(BJ194:BJ216)+BJ96**. (NOTE: BJ96 is a parcel listed under "City of Los Angeles" whereas BJ194-BJ216 are those listed under "LA City." BJ96 gets easily overlooked with an alphabetical by owner sort. The City total was about \$33K less than it should be. With the correction, I now show the City at \$426,604.68 (22.92%) using your sheet (this matches our database - see public parcels tab.) The \$ matches exactly; the % is 22.97% in our database -- this is again is just due to the rounding difference.)

 **RUDNER WARD.pdf**
2602K

Tara,

I double checked and our City totals now match.
